

SHOULDER THERABAND EXERCISES

These Theraband Exercises will help improve your strength and endurance. Your therapist will show you how and where to attach the band to get the most benefit during exercise.

Do only those exercises checked by your therapist. Sit or stand as shown. Adjust the tension by tying the band in a large or small loop. Holding it closer to or farther away from where the band is attached also changes the tension.

Do each exercise _____ times a day.
Repeat each exercise _____ times.
Use _____ band for exercises.
